

## Reflection Paper

The subject Life and Works of Rizal is really interesting because it tells us about Dr. Jose Rizal who is our national hero. I learn many things about him, like how he fight using pen instead of sword. He wrote the novels Noli Me Tangere and El Filibusterismo that open the eyes of the Filipino people during Spanish colonization. Rizal is not just a writer but also a doctor, a scientist and many more. I was amaze how one person can do so many things.

Studying his life help me to understand more about the history of our country. It also made me think what it means to love your country. He sacrifice his life for the future of the Filipinos, that is why we should never forget him. Sometimes the lessons are hard to understand because it has many dates and events to remember, but its still worth it.

Rizal's life is not perfect, he also have mistake but he never give up. He continue to do what is right even it was dangerous. I think we should be inspired of his bravery and intelligence. This subject teach me that even ordinary person can make a big change.
